Editorial

Greeting to the readers.

In this edition, the first article is a review article on the anthropometric determinants that influence performance of a player in paddler Sports (Canoeing & Kayaking).

The second article analyzes the competitive anxiety and psychological skills of the national level sprinters and find out the correlation between those parameters.

The third article is a review article on the effects of Strength and conditioning training on Athletic performance in adolescent athletes.

The fourth article is the analysis of the gymnastics competition scores of the participants of national school games artistic gymnastics championships, 2019.

The fifth article is a review article which summarize the effects of intermittent fasting on sports performances.

Hope these articles will enrich your knowledge and contribute to improving your skills.
