Editorial

Greeting to the readers.

The current edition of the journal comprises five research article and a review article on various sports topics. The first and second articles are case studies on Mann Ki Baat (MKB). In the first article the researchers examine the impact of MKB on the perception of youth and parents with respect to sports as a career. The results show it has a strong impact on youth and parental perceptions of sports as a viable career option.

In the second article the researchers discuss how MKB motivated and made Fit India a mass movement. The results reveal that Fit India played a pivotal role in taking India further in health and fitness aspects.

The third article is a review article on the importance of Vitamin D, Role of Vitamin D in various body function and supplementation for athletes. The study reveals that maintaining optimum Vitamin D levels is essential for maintaining both fundamental bodily functioning as well as muscle performance.

In the fourth article the researchers investigate the relationship between attention, reaction time, and reactive stress tolerance among NCOE athletes. The result of the study shows there is a positive correlation between attention and reactive stress tolerance, and a negative correlation between reaction time and reactive stress tolerance, and reaction time and attention.

In the penultimate article the researchers explore into the psychological indicators needed to understand the mental and physical health of para-athletes. The results disclose an intricate relationship between the two variables i.e, passion and burnout among the Indian para-athletes.

In the concluding article the researchers examined the effect of resistance training intervention programme on women volleyball players' horizontal and vertical jumping ability. The study reveals resistance training intervention programme significantly affects and increased the horizontal and vertical jumping ability of women volleyball players.

We hope the readers would find these studies interesting and useful.
